Message:

Gerrymandering our state so that you are taking the vote away from Texans who disagree with you will be harmful to the whole country. If you can't have a conversation with someone with a different point of view you are not grounded in truth and reality. Humanity takes all shapes and forms and it is time for you to find your own humanity. America is founded on people being able to be free to express their beliefs without fear. You are creating a fascist country, Is that really what you want? It will bite you in the back too.
