Message:

As the presiding party the people of Texas need you to focus on the recent flooding and rebuilding of lives. By switching to jump at the request of Trump asking for 5 seats - in other words to cheat - you have shown your true selves. Republicans in GA were outraged when Trump asked for 11,000 votes and said No. I have visited Texas twice in the last three months and the people are friendly and decent. They deserve a better government!
