Message:

I'm a constituent of Senate District 13 that is represented by Borris Miles. I vote NO for any redistricting that happens in between census collections. I also vote NO on any racist moves or policies that limit my voice and representation. Republicans have some nerve to call a Special Session while many residents are on vacation. Grow a spine and heart and take your knees off our necks. Give us back our bodily autonomy, Healthcare and public school funding. After the next Census, let the residents redraw our districts to make it make sense. We know more about our neighbors and public services than any lawmaker in Austin. We elect those who also know to fight for our interests and demands.
