Message:

Texas lawmakers should strongly oppose the mid-decade redistricting effort being rammed through at the Capitol right now. This naked power grab is a blatant attack on our democracy, and the only way it will succeed is if legislators relinquish all dignity and accept using racist gerrymandering to force a totally senseless, baseless map on Texans which will serve Donald Trump to the detriment of working class people everywhere. The purpose of this process is to prevent the Trump administration from losing the midterm elections - that is a widely known truth which some lawmakers have barely shied away from admitting. The consequences of this map, if passed, will be to set off an arms race of every other state disregarding precedent and policy in creating district maps for political gain, for Texas elections to be rigged indefinitely, and for working class people to become even more disillusioned with the political process. Do not do this. Find your courage and do what is right by the people you claim to serve.
