Message:

Anybody who is supporting this session legislature is a traitor to the state and country. You are all lap dogs for a political power and putting that over the cares of your constituents. And to do it after one of the worst floods in the state's history is an extra slap in the face. It's hard to admonish because that would mean you cared about morality or the law but I'll call anyone who wants to redistrict again in favor of Republicans just because Trump told you to do, what you really are; sniveling cowards. Focus on the people impacted by the floods and do your jobs like you're supposed to.
