My name is Mary Diane Baker and I live in far Northwest Austin in the Canyon Creek subdivision. Our subdivision is considered a high wildfire risk area. My current US Representative is Lloyd Doggett who lives in and represents Austin. In the proposed map, we would now be in District 11 represented currently by August Pfluger who lives in San Angelo, TX. So, my question to you is if we had a wildfire in our neighborhood, would Rep. Pfluger help us? Would he even care if this one little neighborhood in the far flung corner of his district needs assistance especially since we may not align with him politically? We have seen in the recent Kerrville floods that you can't count on your local politicians to do the right thing, so would someone who lives 202 miles away from us really care? I know Rep. Doggett would care and would do his best for us. Would Rep. Pfluger? I want to be represented by someone who cares about me and my family.
