Message:

The TX government under the republican leadership desires to remove fair elections and voting rights from minority communities by redistricting during summer session. This is a clear obvious example of racism led by the government at the insistence of Donald Trump. Greg Abbott and the Tx speaker Burrows are not representing us, their constituents, but are fearful of the repercussions and retaliation of of Trump. redistricting generally occurs every 10 years after the census. This is clearly a “grab” & a Horror. No vote should be taken.
