Message:

I am against redistricting Congressional districts.

Redistricting was just done in the 2021 session, and an unresolved lawsuit regarding that process remains. That lawsuit needs to be decided before any further action is untaken. Redistricting now will result in more legal challenges and costs to taxpayers.

There are many other more important issues that should be prioritized. These include flood emergency relief and warning systems, natural disaster preparedness, reducing property taxes, funding water projects, eliminating the STAAR test, and protecting children from THC. A thirty-day session is not enough time to fully address all the state's priorities AND the complex task of redistricting.

Manipulating maps will erode voter confidence and call into question the results of the 2026 midterms. Redistricting in Texas could result in similar counter-efforts to redistrict in other states, resulting in more legal challenges and controversy.

Redistricting is fundamental to election integrity, voter confidence, and voter participation. Voters deserve a thoughtful, fair, and transparent redistricting process that gives every community an equitable voice through their vote.
