Regarding: Congressional

Message:

I disagree with redistricting.  
Drawing if lines in favor of or in  
order to disrupt any race or  
sociology economic factor should be  
ended. If redustricking must happen,  
drawing geometric rectangles or  
squares would actually encourage  
lawmakers to make laws that are good  
for people le instead of only good  
for a certain demographic or in  
order to break up a demo graphic.
