Affirm public info: I agree

Regarding: Congressional

Message:

I am totally against the illegal and unconstitutional request by Trump to redistrict Texas to further his control of the Government. He is trying to cheat and lie , break every law or rule that has been in place to mak Americans one of the greatest countries. We are already a laughing stock to all the other countries of the word. When will enough be enough? If this gets put through it will never end !!! He's testing the waters to see how stupid and criminal the politicians voted by the people for the people will be and bow down to him like faithful little soldiers. He is the new Hitler and someone needs to stand up to him and say no!!! Have a conscience, if this is put through not only do you hurt the people of this country you will have to answer to God in the end! Do the right thing and say no!!
