Affirm public info: I agree

Regarding: Congressional

Message:

To the committee,

I am a lifelong Texan. My family has been here for generations. I have always felt pride for my state until the last few years. I do not agree with the redistricting. I think the special session should only be used to address the safety concerns. I do not know how politicians can sleep at night worrying about getting more seats rather than the safety of its' people. Please oppose the redistricting.
