Message:

Please make the priority during this special session fixing the emergency response debacle for the largest natural disaster in modern Texas history. In light of the number of lives lost needlessly it is crass and heartless in the extreme to spend this season redrawing the map for political purposes. Shame on you for sending thoughts and prayers when you are in a position to do something. Our political map is already unforgivably gerrymandered in the first place. Please do the right thing, focus on helping Texans be safe and have the resources they desperately need. Do not carve Texas up to benefit only yourselves when there is real work to be done.
