Date: 2025-08-07  
First Name: Molly  
Last Name: Machemehl  
Title: Ms. and Licensed Specialist in School Psychology  
Organization: school health and safety business  
Address: [REDACTED]  
City: Grapevine  
State: Texas  
Zipcode: [REDACTED]  
Phone: [REDACTED]

Affirm public info: I agree

Regarding: Congressional

Message:

Thank you. I am grateful for this opportunity. My name is (Ms.) Molly Ruth Machemehl. I lived and worked in the Gulf Coast areas and Central Texas. I now live and work in North Texas. I am a Licensed Specialist in School Psychology ("LSSP") in the state of Texas and Vermont. In 2000, my name was Mrs. Molly Ruth Machemehl Graham. In 1999-2004, worked in internal audit and risk assessment for mostly energy clients before mental health work. Audit findings in 2000 indicated that promises at the onset of post segregation to restore needed resources to areas that were adversely affected by segregation were not fulfilled. The findings showed that facilities were placed in those areas with deprived resources. Needed resources such as quality medical care, first responders, clean water, access to healthy food supply, power, gas, maternal resources, and sewage were lacking even in 2000; through end of 2020; and into 2025. The results indicated that those facilities came PRIOR to the increase of low incident health conditions not in response to those conditions. Speaking as required, those facilities included abortion clinics and other large companies. In the name of choice, they deprived needed resources and were not priority to restore what was promised. The companies and executives of those facilities strayed from what is considered essential. Procedures on demand are not choice. Reallocating funds from essential needs on demand is not choice. The executives and leaders strayed from what they stated were their intentions. No matter which way I voted, I was required to report what was found. Please document and prioritize basic needed resources with funds for first responders and the life needs listed that might be allocated through redistricting as it pertains to life, liberty, and the pursuit of happiness by providing access to needed resources in all areas being redistricted for ourselves and our posterity. In summary, do not cover up the needs through redistricting while concerns exist. In the name of choice, liberty through access to resources promised

was deprived. As an LSSP, my colleagues and I evaluated students of those who experienced an adverse health effect from the lack of physical resources. Please have areas remove funds that were taken from essential needs that were reallocated into the companies and abortion clinics that were not priority and/or reallocate as funds were sent to city councils for intentions other than needed resources. Consider boundary lines. I implore city leaders and the congressional committee members aware to give facts to the public of the funds approved for allocation instead of lumping requests into a large allocation of funds with no understanding of how funds could be used. The fund allocation was available but not released to the public before voting. This is a redistricting matter. Areas were previously and recently neglected.

Last name pronounced (formally) - Mawk-i-mell  
New precinct since 8/3/2025 - 4620; SD 16; CD 6
