Regarding: Congressional

Message:

Members of the Senate Committee,

I urge you to reject the proposed redistricting maps, which dilute the political voice of communities of color and undermine the principles of fair representation. These maps are a blatant attempt to entrench power rather than reflect the true diversity and growth of Texas. Redistricting should be driven by data and represent the people in the state, not partisan interests. Texans deserve districts that strengthen our democracy, not weaken it. You know that mid-decade redistricting is not a priority for Texans and we stand against your blatant attempts to take away our voices and representation. Focus on flood/emergency relief. I implore you to remove redistricting from the legislative agenda.

Natasha
