Message:

I feel choices are being made and laws are being passed without any regards to the constitution or laws. To ask the President to send FBI agents to arrest people for a state issue not Federal is wrong.

Keep this in mind. Even though you think you're winning in the mean time. You won't be able to in the years to come. You're setting things up to go completely to the other side.

Im a Republican. And I disagree with what you have done in Texas. We have the right to have a gun, but we're at risk to have a baby, get a public education or food assistance if i fall on hard time, health care when im older. Draw lines that do not actually represent our diverse state. Who are you really working for? Texans? It doesn't feel like it when you deny, a voice, a choice, food, protection &

helping communities  
infrastructure. Instead  
you deny us of all of  
that. For what? For who?  
Why?
