Message:  
I am against the redistricting of the state of Texas. The only reason this is being considered is to make our great state even more hard core right wing and is essentially the government of Texas bending to the will of Donald Trump. It is a part of his process to get rid of our democracy and replace it with a fascist state. Shame on our federal and state governments for not protecting our Constitution and our democracy as its founders intended. No redistricting!
