Message:

It is demoralizing and infuriating to see how easy it is to call for redistricting without considering the impact it will have on the voters of this state. Please be courageous enough to resist Trump and his egregious demands. Texas is not just a red state. It should be a state where all voters have an equal voice. Please devote your time and energy instead on the pain, grief and massive destruction caused by the Hill Country floods. Texans need you to prioritize this issue first. Thank you for taking time to hear from all impacted by your decisions.
