Message:

Texas House Democrats are taking the fight to the rest of our country. They're blocking the vote in Texas and will spend the next two weeks meeting with workers around the country who have the courage to fight Trump's tyranny.

This is a national issue. We must deny Texas Republicans the quorum they need and turn up the heat given the unparalleled attack on democracy that may have begun in Texas but will sweep across the country.

This isn't a Republican or a Democratic issue. We can't let them divide us like that. This redistricting scheme should matter to all workers.  
We're all in this together. This will affect every single person in this state and country.

We're Texas proud. We always say that everything's better in Texas, and we're proud to not be like places like Washington, DC.  
So why is Greg Abbott weakly allowing Trump to control him? To turn Texas into his political playground? — all while ignoring the real problems faced by Texas workers throughout our state.

Greg Abbott is letting Trump take over Texas. With this redistricting scheme, they're trying to suppress the votes of Black and Brown folks across our state. Why? Because Trump knows he's in trouble — so he wants to rig the rules to keep himself and his billionaire buddies in power.

We need leaders who put Texans first, not those who play political games.
