Affirm public info: I agree

Regarding: Congressional

Message:

I am writing to register my strong opposition to SB4.

There exists a time honored system for drawing district maps based on results of census gathered data. This occurred after the last census. Why are we discussing redistricting mid stream? The answer is because President Trump said he “needs 5 more seats.” Since when does any president dictate to a state what they should be doing. What happened to State’s Rights? Who is paying attention to the real problems facing Texas—flood relief, emergency and natural disaster preparedness, water projects? And where is the transparency in the whole redistricting process? The process has been rushed without reason. The House Select Committee on Redistricting has held ONE public meeting, with only 48 hours notice. Even with such short notice, the public input and response was overwhelmingly negative. And yet the rush to redraw districts presses ahead. THIS IS NOT HOW DEMOCRACY WORKS! I am ashamed to call myself a Texan.

All Texans deserve fair maps—not a capitulation to an over reaching president.

I urge you to vote “no” to SB4 and restore Texas’ independence from federal meddling.
