Message:

Stop gerrymandering. I have lived in many parts of the Houston area for over 15 years. During that time I have lived in three different congressional districts and never have I seen any desire by my representatives to actually represent my interests nor those of my family and friends. The latest proposed district map looks even worse in that regard. The map would fit right in as the picture you would see in a social studies textbook in the section on gerrymandering. Assuming that is even taught in schools any more. The people that drew this map should be ashamed and anyone that approves it should feel worse. Stop being a coward and do the job you were chosen by the people to do. Reject the proposed map. Draw a fair map and restore democracy to all of the people of Texas.
