Message:

It is extremely alarming that this is even a subject before the 10 year census. This is purposely designed to gerrymander and limit black and brown votes. I am sick and tired of this behind the scenes way to silence and suppress all Texans. Do your job! Stop forcing and limiting all Texans voting! Every single one of you have been elected to be a representative for Texans, stop this mid decade gerrymandering and redistricting now! Stop being a puppet for the federal government and represent the people of Texas. If Texas, cannot we will fully support other states that have a backbone to add more seats to their own states.
