Affirm public info: I agree

Regarding: Congressional

Message:

The current Republican plan to redistrict Texas is nothing short of racially biased gerrymandering done at the behest of a corrupt criminal president who seeks to retain power at all costs and dismantle the democratic process.

Redistricting should not even be under discussion at this time as it happened following the last census, and these deliberately calculated lines are nothing less than a ploy to deny Texans our democratic right to representation by weighting voting in a manner structured to disenfranchise those unfavourable to the current regime. This is illegal and immoral, a tactic reminiscent of the use of 'rotten boroughs' to rig elections in 19th century Britain. This practice was made illegal in the UK nearly 200 years ago to protect democracy, and is against both the spirit and the word of the American constitution which upholds a true democratic process and fair representation.

Allowing this to pass presents a clear assault on democracy and create a dangerous precedent which has the potential to destroy American democracy. This appears to be the agenda of the proponents of this bill, who are so frightened of losing power they are resorting to such nefarious means to cling onto it. Please represent your constituents, protect democracy, and reject this flagrant attempt at gerrymandering.
