Affirm public info: I agree

Regarding: Congressional

Message:

Redistricting in the middle of the decade—after sworn testimony affirming the legality of the current maps—is not only unacceptable, it is blatantly anti-democratic. This opportunistic attempt to redraw congressional boundaries ahead of the 2026 midterm elections is a transparent effort to gerrymander up to five seats in favor of one party, not to better serve the people.

Manipulating district lines for political gain erodes public trust, silences communities, and undermines the very foundation of representative democracy. Voters should choose their representatives—representatives should not be choosing their voters.

I strongly oppose this mid-cycle redistricting and urge our leaders to uphold the principles of fairness, integrity, and accountability.
