Message:

The state of Texas has a history of gerrymandering. The Republicans in office have continually denied Texas citizens their voices and their vote. It was shameful when Texas did it before and it is equally shameful that the governor and Republican Party are doing it again at the bequest of the current President.

My question to you is when will you stop stealing from Texans? Are you going to wait to see when the people will overthrow the corrupt leaders? Do you want to see a civil war? Will you continue to pit the people against each other and stand by while we fight our neighbors? Will you wait until our economy crashes at the hands of these corrupt and inept leaders you support?

What motivates you to engage in such corrupt tactics? Calling yourself a Christian state and demanding the 10 commandments in the schools doesn't seem to stop you from committing sins and corruption. It is incredible to believe that greed can motivate you to be so shameless. What stops you from doing bad things? Is there anything?

You are breaking our state and country apart with your every illegal and immoral action. Stand up for what is right and focus on helping Texans and not your own dirty pockets. Stop the steal of our vote and focus on helping Texans meet their basic needs. Help the people of Kerrville county. Help people find and keep affordable housing. Get us higher pay. Give our children quality education. Give us affordable and accessible healthcare. Give us a safe environment and remove the constant barrage of gun violence. That's why you were voted into office and not to appease the billionaires and the demented, greedy president. Stop the gerrymandering and show the president that Texans are not to be manipulated and abused!!!
