Message:

How can this state possibly gerrymander any more than it has already done? The districts you have picked to redistrict are obvious choices because of race issues. My vote as yours should be colorblind and represent the votes of those in the district which covers an area that represents those within that area drawn by impartial, unbiased citizens from another unaffected group. It should represent the makeup of an ungerrymadered region. All one has to do now to understand voter suppression is to look at the present congressional maps. Make us proud of this state again.
