Message:
The proposed map is a disgusting display of obvious gerrymandering in an attempt to silence Texan's voices and rig elections in favor of unpopular politicians and legislature. The federal government, more specifically Donald Trump, has no right to buy off and intimidate Texas politicians into doing its bidding. This state has enough problems already. Vote against the plan to redistrict Texas. If you want to prove that your policies/politicians were popular, you should try playing the game without cheating.
