Affirm public info: I agree

Regarding: Congressional

Message:

I strongly oppose the current push for congressional redistricting based on outdated data from the 2010 census. There is no legitimate, current population data to justify such a disruptive and far-reaching action. Without new census results, this effort lacks both accuracy and integrity.

Let's be honest about what this is: a transparent, reckless attempt to manipulate district lines in service of one man — Donald Trump — rather than the people these districts are supposed to represent. This is not governance. It's gerrymandering in the service of a personality cult, not a republic. Texas has a long, sordid history of racial bias while drawing district boundaries, and this is undoubtedly another link in a sordid chain of events.

To those who are enabling this farce: history will remember your choices. You can either stand for democracy and fair representation — or find your legacy lumped alongside those who enabled authoritarianism and division. The choice is yours. Choose wisely.
