Message:

I do not support the redistricting of Texas. This is Gerrymandering and should be illegal. Changing things to benefit one political party is not a good representation of the PUBLIC. All elected officials work for their constituents not a political party!

Do not lessen voices of any constituent by drawing lines that do not make sense. I someone who lives in Schertz should not be voting with people in south Austin.

You should not be changing anything until we have another census and have an accurate count of people.

Lines were re-drawn 4 years ago. This a political stance that no one should be okay with. If it benefitted the democrats the republican party would be in an uproar.

Do what is best for the average person and leave the lines alone until we have another census to show numbers have changed.

Also, make the lines clear and
easy to read. NOT LIKE SWIRLING
PAINT.
