Affirm public info: I agree

Regarding: Congressional

Message:

I am strongly opposed to the proposed redistricting in the state of Texas. My research indicates that the districts were redrawn in 2021 and there is no evidence to redo the districts again. I am afraid that the move by Texas will prompt other states to decide to redraw their district maps and then it will be a constant battle between states vying to gain political advantage.

I urge Congress NOT to go down this path. There has been so much chaos and turmoil within our country in the past few months. Please do not create yet ANOTHER BATTLE for control. We are all at the limit of our patience with the constant battle for power and control.
