This proposed map is BAD, and y'all know it. You know exactly what you're doing: giving Trump his five seats he asked for because he's scared about midterms. And so what do y'all do? Cheat. You're breaking up districts that you know are predominantly liberal, like Austin where I live, and sweeping them up into conservative representation, where their voices will be watered down. And this is not based on any new census data! The map ignores reality and silences the voices of the people. According to the League of Women Voters, "Districts may not be drawn for the purpose of favoring or discriminating against an incumbent, political candidate, or political party. "People are supposed to select their leaders, not the other way around!

I've lived in Central Texas my whole life. My family has been here for generations--some since Texas was a Republic, and some even before that. If conservatives are so upset that Texas has a rising minority population and liberal lean, why don't y'all white supremacists move somewhere else, like you always tell us to? This is our home, these are our voices, and our values. Not

Trump's!

You serve the people; don't forget.
