Message:

On August 1, hundreds of Texans like myself testified at the Texas House Committee hearing against Redistricting. Less than 1% of the testifiers supported Redistricting. Since the census data only comes each decade, there is no new census data to justify redistricting. Over the past 3 years Gov. Abbott has supported very unpopular items like severe abortion restrictions, school vouchers (after accepting millions of dollars in bribes from an out-of-state billionaire) and now redistricting. Average Texans don't want any of these things. Texas used to be the go-to place to live. Now the Governor has scared off women, made parents think twice about sending their kids to Texas schools and now everyone is watching more corruption unfold with redistricting. Please don't let the Governor continue to hurt Texas' reputation. People are associating Texas = CORRUPTION. We're the state where high ranking politicians ignore the people. Please reject redistricting.
