Message:

Texas should not be trying to prevent even more Democratic voters from being represented in Congress. I am always grateful to have Rep Doggett fighting for causes on our behalf, particularly the preservation of our democracy. My precinct on the outskirts of Austin, P274 which I chair, is majority Democratic, so this representation is as it should be. On the other hand, we do not receive fair representation of our views in the Texas Senate under Republican Donna Campbell. Our democracy functions best with the healthy debate and compromise that comes from a two party system that is truly representative.

Texas Senators, please don't forget who you work for and whose tax dollars fund your work. The people of Texas deserve fair maps, but the data shows we are already far from that at both the state and national level. The D to R ratio among US Reps from Texas is far from reflecting the D to R ratio among Texas voters. Redistricting at this time to attempt to maintain control of the US House, as directed by the Trump Administration, is putting political power ahead of the Texas

voters you work for, and is causing states both red and blue throughout the nation to react with similar redistricting gamesmanship. Please, do not prop up an unpopular authoritarian dictator. Please stop supporting the destruction of our democracy.
