Affirm public info: I agree

Regarding: Congressional

Message:

To the Honorable Members of the Texas Legislature,

I am writing to express my strong opposition to the proposed congressional redistricting plan. This plan is a clear and egregious example of partisan gerrymandering that undermines the democratic process and disenfranchises voters.

Redistricting should be a process of ensuring fair and equal representation for all citizens, but this plan does the opposite. It appears to be a calculated effort to manipulate district lines to favor one political party, creating districts that are less competitive and making it more difficult for the voice of the people to be heard. The proposed map dismantles districts that have provided representation for communities of color, diluting their voting power and creating districts where they are less able to elect candidates of their choice.

This is not a reflection of population changes or a response to legal challenges; it is a political power grab. The plan targets districts in major urban and suburban areas, where much of the state's population growth has occurred, and carves them up to benefit a single political party. This kind of manipulation erodes public trust in our government and makes a mockery of the principle of "one person, one vote."

I urge you to reject this plan and instead adopt a fair and transparent process that respects the will of the voters. Texas deserves a congressional map that reflects the diversity and growth of our state, not one that serves the interests of a political party.
