Message:

As a citizen of TX and a native Houstonian, I am proud of our state and people. We are people of principal and respect our neighbors. Since 2021 certain members in the TX government decided to disrespect their constintuents by gerrymandering. If respect, fairness, and principal were truly a priority for you then there should be no manipulation. Houston has long been a target. Our diversity is our strength and there is a constant attempt to silence us. If individual plights will not have an affect on your decision, then hopefully an appeal to your egos will. This will be your legacy. Your names will be known for what you stand behind. How does this truly help Texans? This "redistricting" wasn't even suggested by a Texan. What will your children say? What will your family say?
