Message:

It seems to me that the Republican Party has written in its own downfall.

1. What a disgusting pathetic and embarrassing map drawn by Todd hunter or whatever his name is.
2. The democrats are not going to sit idly by, and that goes for democrats NATIONALLY since it's clear to me fire must be fought with fire.
3. I can smell the fear on you.

If you have any ounce of soul or heart left, LISTEN to it or you will regret it.

No, that is not a threat.

You will regret your evil wrongdoings one day, let's hope you fix that before the end of your life or God will not look kindly upon you who are racist and support genocide of Palestinians or who support the suppression of black and Hispanic and working class voters in Texas. GOD IS ALWAYS WATCHING B*TCHES!!!

You are on the wrong side of history my friends, and I hate how much joy it brings me to see you destroy your own party from within, all because you just had to listen to Dumpty J trumpy, a literal P-E-D-O-P-H-I-L-E.
