Title: No on redistricting districts 9,18,29 and 33
Organization: Self
Address: [REDACTED]
City: Carrollton
State: Texas
Zipcode: [REDACTED]
Phone: [REDACTED]

Affirm public info: I agree

Regarding: Congressional

Message:

I am a fourth generation Texan and have lived my entire life in the state. Approximately four years of college were spent in South Texas. The floods have absolutely devastated the state, barely four years after storm Uri. I am shocked that the Texas Senate is submitting to DOJ pressure to bring redistricting to these four districts (9,18,29 and 23) all of whom have a Democrats representative. It's not only suspicious but appalling that congressional members and Governor Abbott are willing to go this far to suppress minority voters. Restricting will disenfranchise minorities who work just as hard and deserve equal representation in Congress. The act of illegal redistricting, i.e. gerrymandering, is setting not only Texas up for failure but will drastically impact The US House and Senate. The government is not meant to be a singular representation of ideology, it is not meant to be an oligarchy and house a prince. By submitting to the DOJ the senate is not only showcasing that Texas truly has no sovereignty but that Texas does not care for its tax paying citizens. I urge the senate committee on redistricting to not redistrict TX districts 9,18,29 and 33. I believe in a better Texas and a better future for Texans, a future where the obligation is conversation from across the aisle, rather than a echo chamber that leads nowhere.
