Regarding: Congressional

Message:

Texas has no business being redistricted. It was established years ago that the congressional maps adopted by the state were NOT gerrymandered on the basis of race or at all. This is an explicit attempt at trying to steal seats from the Democrats in order to make it more favorable for the Republican majority. Stop bending the knee to the fascist Trump administration, Texans are tired and need a local government that will ADVOCATE for them, not for a dictator.
