Message:

As an El Paso citizen it upsets me and my family that you law makers look for anyway to undo what works for our city but yet none of you so called loyal Republicans care about bit about El Paso. If you come to see our city it is just to appear on the national news, not that you care about us. Get your shit straight and see that we are totally against you dividing our districts just to full fill that person in Washington DC that has all of you Republicans controlled. Get a back bones and stop this nonsense.
