Message:

I am writing to strongly oppose the process of redistricting that is occurring during this special session. The process that is currently underway is undemocratic, rushed, and illogical due to the ongoing legal case regarding the 2021 redistricting. The redistricting process that Texas follows does not support the will of the people nor does it reflect communities that these representatives are meant to support. There are other priorities to focus on, such as immediate flood relief, rather than disenfranchising communities of color with an unnecessary redistricting process. I strongly urge this special session to focus on what Texans care about: our communities being represented by folks we elect.
