Affirm public info: I agree

Regarding: Congressional

Message:

I want to submit my profound complaint about the proposed redistricting in this upcoming special session. Texas has had growth in our minority communities. My disappointment is so great because we currently have an ongoing case in the judiciary against the racial gerrymandering from the 2021 map. I find it abhorrent that the legislature is meeting not to primarily deal with the tragedy in the hill country but redraw maps to squeeze out five more Republican seats. The public has not been able to view the proposed maps and submit complaints about them. We do not know what consultancy group was used to create the maps. Texas has a shameful history of discrimination against people of color and has frequently violated the VRA and the 14th amendment. Currently, we are targeting majority minority populations in DFW and Houston so we can dilute POC voices. Previously our voting maps were cracked with precision. We demand public hearings prior to the votes and to create and maintain a website for said hearings, census information and to post maps
