Message:

The state of Texas and its people deserve not to have their democratic rights taken away from this re drawing of legislative and congressional district lines. The fact that the governor is trying to do this way before it is time to do so is very telling about the Republican Party and what they will do to secure their seats in Washington. The people are watching and we are not ignorant to the tactics used against the will of the public. Please do not allow this to happen, Thank you.
