Message:

I am proud to be a Texan, but I am not proud of our state government and have never been my entire adult life. This special session was created to address the horrific flooding and damage that claimed the lives of over 125+ Texans. Instead, you are being coerced by the president and governor to prematurely redraw congressional districts in order to remove the only POC reps Texas has in the House of Representatives. This is not a coincidence. It is a deliberate effect to silence the voice of Texans. The only action taken regarding congressional districts should be to enforce a nonpartisan group of equal representation of both democrats and republicans to agree on a new statewide district map organized by geography. As of now, Texas has multiple districts that span several hundred miles in a straight line. This is unacceptable. Our congressional representatives must be accessible to each of their constituents to a reasonable degree. Do better.
