Message:

We attended last Thursday's Tx House Committee on Re-Districting at Tx State Capitol in Austin, a long day for a 75 and 77 yr old, from 2 pm - 10 pm when the chance for public testimonies ended. Since we live in the Tx Hill Country, many of our friends and neighbors were impacted by the tragic July floods, some losing lives, others homes, vehicles, and animals. We were impressed that Gov. Abbott called this Special Session to address the needs related to the tragic flooding, but furious when we learned that the maps re-districting topic had been added to this special session! How shameful! It is NOT acceptable to be "playing this political game" when very serious, crucial work is needed to address the numerous needs related to the very tragic flooding!!! If the Tx Legislators with good moral values decide to leave Texas to break quorum and refuse to vote on re-districting, we applaud their actions! Bravo! Bravo! Bravo!!!
