Message:

I am very concerned about Texas making voting even harder for its people. I have worked on voter information hotlines and our laws are quite intricate and confusing for the general public.

But this is not the purpose of this Special Session of the Texas Legislature. As far as I can tell, its purpose is to further gerrymander our state, especially diluting the power of minority votes.

Additionally, Republicans in the legislature seem to be conducting hearings in a way that does not follow conventional rules or even the law of the State of Texas.

Please do not further erode the public's trust in your leadership by adopting maps that pander to the whims of the federal government. Texas must stand for itself in this instance.

Thank you for your attention and for your service to our State.
