Message:

Republicans created new voting districts in 2020. The districts favored Republicans and were supported by Republicans.

The 2020 districts allowed Republican politicians to choose their voters. VOTERS SHOULD CHOOSE THEIR REPRESENTATIVES.

Trump's motive in manipulating new districts is transparent, as are the motives of Texas Republicans who he controls.

Republicans should REFUSE to redistrict and retain the 2020 plan they designed and voted to accept.

Constituents and elected officials have a right to think and speak without fear of retribution.
