Message:

This is in regard to the redistricting discussion for Texas. As you know, Texas just redrew maps in 2021. Texas has a history of racial gerrymandered maps. What you are doing is continuing that pattern. Communities of color are intentionally being split up, weakening their voting power and representation. This process is flawed: it is rushed giving almost no notice or opportunity for public input, and the proposed maps are not even available. We need even more districts to be drawn for communities of color, not less. In addition, this is clearly not a necessary action but one that was called by those who covertly control the great state of Texas. Stand up for Texans - you are our only hope. I appreciate your efforts in representing us, but this redistricting effort is flawed. Thank you for taking the time to listen to constituents.
