First Name: Carol
Last Name: Wetterauer
Title: n/a
Organization: self
Address: [REDACTED]
City: Katy
State: Texas
Zipcode: [REDACTED]
Phone: [REDACTED]

Affirm public info: I agree

Regarding: Congressional

Message:

My name is Carol Wetterauer. I am precinct chair for 1122 in ft bend county. Besides canvassing for the Fort Bend Democrat Party, I have worked on several grassroots campaigns in an attempt to make a difference in our community and ultimately in the world around us. I feel that our country has been misguided for most of my adult life. From the days of Jim Crow, segregation and redlining, to the lies surrounding the Viet Nam War, the myth leading us to the War in Iraq, the lack of transparency in politics, the negligence of adequate health care, lack of gun control, the insufficient funding of public schools, the lack of interest in protecting our environment, and I could go on.

These issues should be championed by leaders of our democracy. However, instead of tending to matters that affect citizens the most, such as the Hill Country Floods and lack of an effective warning system, our state's officials are spending their time and our tax dollars on redistricting. Redistricting at this time is for the sole purpose of eliminating Democrat seats in the House. We will not have a fair election in 2026, we will not have fair representation in Congress. This is an affront on our voting rights. Pure and simple, our country is overrun by greed and corruption.

Having canvassed for Lizzie Fletcher's campaign in 2018 and 2022, I spoke with many of her constituents. People appreciate her passion, hard work, and effective legislation. Changing our maps now is a ploy by republicans to control the results of the 2026 election. It is an attempt to remove Lizzie from office. I say let the people of her district make the decision to keep her in office or elect someone else. There are other Democrats currently in office who are also being targeted.

I oppose redistricting and implore our State Legislators to do the same, because it is the right thing to do. We, the people, are supposed to be the ones choosing are leaders, not the other way around.
