Message:

The recent proposal for the redistricting of Texas districts is a shameless power grab, driven not by population needs but by political manipulation. Donald Trump openly told Texas legislators to “find the seats,” and that’s exactly what you are attempting to do—at the expense of fair representation and democratic integrity.

Although many citizens have shown up to voice their objections; many are unaware this is occurring, others are hard-working American citizens, who simply cannot afford to take time away from their work and family duties to attend these hearings, and still others feel powerless and disillusioned.

I did not attend the hearings held in Arlington but I want to voice my strong objection to the proposal of redrawing our districts here in Texas.

I believe this is a blatant attack on fair representation and a disgrace to our democratic principles. These are attempts to silence communities of color, entrench political power, and rig elections in favor of those already in control. This is not governance—it is voter suppression in plain sight. Texans deserve districts that reflect the true makeup of our state, not ones manipulated to serve partisan interests. This assault on democracy must be challenged. I urge you to be brave enough to do so.

Respectfully,

Carrie Ozuna
