Message:  
Howdy!

To start I appreciate your dedication to spending your days working for the people of Texas to be represented and helping to make Texas a better state than it is. I believe redistricting is not the way to help make Texas better. Gerrymandering a map to make false representation of the people of Texas is low and I cannot believe what any Texan would want their tax dollars and the valuable time of the legislature being used on when there are more pressing items to be dealt with. Please stop this silly nonsense and vote to stop this process.

God bless and happy trails.
