Message:

The effort to redistrict is one of the most grotesque examples of gerrymandering we've ever seen. These maps are guaranteed to launch court litigation that will waste taxpayer money and likely end up being reversed because of how blatantly illegally these districts are being redrawn. President Trump is not a king. Governor Abbott and our state legislators are not obligated to him to make this happen. They are obligated to use, the people, and this redistricting effort is an attack on our Civic voting power. For a state that claims to value individual freedom, this would result in exactly the opposite when it comes to the power of the people. Reject the call to redistrict, our at the very least, make our districts more fair, not less.
